

DIFFERENCES BETWEEN THE MILANO AND SORRENTO

MILANO SUMMARY: The Milano caters to clients who require tilt in space, pressure care and the chair to be adjusted to their size. This would be mainly aged care or clients at home. The Milano has three setting seat depth adjustment.

SORRENTO SUMMARY: The Sorrento is used for clients who need more customisation on very specific seat depths and widths or custom cushions. The arm rests are height adjustable and also removeable for sideways transfers. You can also request customised parts for the Sorrento. The Sorrento mainly caters to NDIS clients with complex positioning needs or hospitals.

	Milano 	Sorrento 	Comments
